

The Case For Islamo-Christian Civilization - Richard W. Bulliet

A preeminent Middle East scholar argues that beginning in the 1950s American policymakers misread the Muslim world. Instead of focusing on the growing discontent with the unpopular governments, the policymakers saw only a forum for liberal, democratic reforms within those governments. By fostering slogans like "clash of civilizations," and "what went wrong," Americans to this day continue to misread the Muslim world and to miss the opportunity to focus on common ground for building lasting peace. This book offers a fresh perspective on U.S.-Muslim relations and provides the intellectual groundwork upon which to build a peaceful and democratic future in the Muslim world.
