QUOTES "We feel it's time to introduce something different to the streets with our flava of Urban Dance. We also feel

dance music has suffered from almost eliminating the performing artist from the genre and focusing typically on the DJ. We will rock the clubs with a live band and do track dates, we are ready to bring our USB sound to R&B and the dance music podium. In dance music the public should be able to put a face with the voice they hear as with any other genres of music. The public needs to identify and connect with who is telling the story. So All Rize is ready to bring Urban Dance to r&b and dance/electronic music ."- All Rize "My favorite track is "Release", this track is HOT!" - Angel Crow, Borders Book Store, Philadelphia. I can't wait to hear it in the clubs and I love track 4 No I'm Not Your Girlfriend."- Carlos Adams , Product Manager- Urban Soundtracks, Virgin Ent. Group, Los Angeles All Rize will no doubt shake up the dance/electronic fans with their new brand of USB, so jump on board and as track 10 suggest let All Rize take you on a "Ride."
