Details: "Don't Put Me In A Box" is Andy's debut album. Thank you for listening. About myself: I graduated from Utah State University with a BA in music (vocal major and instrument minor)I played in bands and toured the western provinces of Canada, including Alberta, British Columbia and the Northwest Territories. We also toured the western US including Utah, Nevada, Idaho, and Washington. We did only coverband material. I did try an original Christmas single that featured Santa's Jet and Christmas Dream (visit my website for sample links) and sold over 5,000 copies. I learned that people wanted more than just a couple of songs. That put me on the path to complete my own CD. I have now completed that goal. I truly appreciate all the encouragement from my fans including friends, family and everyone that has encouraged me to make this CD happen. I think you will enjoy this new music. I look forward to your feedback. Andy
