British influenced modern rock 14 MP3 Songs POP: British Pop, ROCK: Modern Rock Details: This is the first CD that I did after a long hiatus from recording. Although it is all done rather lo-fi I think the songs still good and deserve a listening. I have been recording since the late 1970s but, unfortunately most of my music is unavailable. I'm slowly trying to change that since I believe that there is good material in there. My background goes from British pop to experimental music and I think it shows in my music. I have influences from Brian Eno to Prefab Sprout to bubblegum music of the 1970s. I just like to keep my ears open. Like I said, this is a lo-fi album in comparison to a lot my more recent work with Chad Wheeling. Still, if you can listen beyond that I'm sure you'll find a few jems in here.
