It's all wintery and ALL Canadian- EH?...an easy listening collection of singer-songwriters (and no two snowflakes sound alike.) 15 MP3 Songs EASY LISTENING: Soft Rock, POP: Folkly Pop Details: ...so like we're sitting around the igloo drinking really cold beer (like it's frozen) and Bob say's, "hey we should ask a bunch of Canada's coolest (actually almost frozen) indie singer-songwriters to give us songs about winter cuz its like 10 months of the year here and what the hell - why not celebrate it or something (which made Bob run out and get more beer). So like we sent some letters and made some phone calls and our people talked to their people and we did the schmooze thing and like all these artists started sending us piles of records and tapes and 8 tracks and even a few CD's (which we couldn't play because Bob spent all our money on beer so we still can't afford a CD player - maybe I'll get an MP4 player - there supposed to be better than the 3's. So like we picked 15 songs after listeneing for days and days and they were from all across Canada and all kinds of styles like pop and folk and blues and jazz and country and well like everything we like listening to - so we felt pretty proud of ourselves - so proud that we took off all our clothes and painted a red maple leaf on our butts (Bob's leaf was much bigger cuz he's got a bigger butt)and stood outside and screamed "Let It Snow!" , then we sang the anthem - even with the French verse which sounded pretty bad - and we got frost bite on parts of us that are really important (well maybe not so much for Bob cause he's a little different anyway) and now WE WANT YOU TO BUY THIS CD so we can buy more beer EH!!
