Christian Alternative Rock/Pop 16 MP3 Songs POP: 80's Pop, ROCK: Modern Rock Details: The title of this album, "Visions and Dreams" comes from Acts 2:17. This title is meaningful to me because the original musical and lyrical idea for many of the compositions were given to me in Dreams. The songs vary greatly stylistically although most of them fit into the Christian Alternative pop/rock genre. The music is not clich'. This album is full of very strong original ideas that came to me straight from God. Full of memorable hooks and catchy phrases, tracks 2 thru 11 is a rapid fire juggernaut of one radio friendly pop/rock song after another. Tracks 12 thru 15 are pop ballads. The opening and closing songs are modern instrumentals. With the exception of the help and guidance I received from God, this album is a true solo project. I did everything involved in creating this CD. All songs were written by me, (co-write partners are highlighted in parenthesis). Without exception, I played each instrument (electric acoustic guitar, bass, piano, various synthesizers, drums percussion) and sang all the vocals. Arranging; producing; engineering; mixing and mastering were all performed by me as well. I even painted all the art for the jewel case. I hope you enjoy the music and that it encourages you in your walk with Jesus. Cash McCloy March 2003
