

## Mp3 Eric Schwartz - That's How It's Gonna Be

[DOWNLOAD HERE](#)

James Taylor and Wierd Al have a love child (Godfathered by Elvis Costello and Stephen Sondheim) and turn him loose on the streets of New York. 11 MP3 Songs FOLK: Modern Folk, FOLK: Gentle Details: "When an album begins with a jazzy piece about two loving lesbians and ends with a gospel-tinged ballad about loss and acceptance, you know that almost anything can be thrown into the middle...That's How It's Gonna Be is a giddy mix of moods, messages, and styles." wrote Neil Fagan in Performing Songwriter Magazine when Eric's album was selected as an Editor's Choice. Spinning tales from his tangled inner web, Schwartz uses honesty, humor and irony to build a landscape where nothing is sacred, and everything is, well, a little different. His debut album is receiving airplay across the country, including regular playing on Dr. Demento. Yet, it's not what you would call a 'novelty' album by any stretch! "In dealing with diverse subjects with a singular talent, Schwartz not only demonstrates a command of many styles of music, but ushers in what will hopefully be a new breed of songwriters who can deal with traditional, modern, and postmodern forms with near-equal aplomb," explained Matthew Robinson in the Boston Globe. "That's How It's Gonna Be" is a debut album that demonstrates the scope of Schwartz' talent, the kind that places him on a major festival stage or college campus one week, and in a comedy club in LA the next. What can we say - the boy's confused? He'll tell ya he was treated for multiple personality disorder. Don't believe him. Eric knows exactly what he's doing - and fans everywhere are loving him for it!
