Details: Reviews, "As I'm writing this, I'm listening to Jims latest CD and thinking 'If you don't like Jim's tunes, you won't like anything.' That's the way I feel about him personally, too. He's a great guy who writes and sings honest songs. He's lived these songs first and now we all get the chance to enjoy them. I've had the privilege to record two albums with him and have enjoyed every minute of it. I hope you'll appreciate Jim's talent like I do." MIKE McADOO (AWARD WINNING GUITAR PLAYER, TX MO) I have to say that working on Jim Regers CD was a real pleasure. His easygoing vocal style and simple, but effective arrangements made it fun to listen to while his songwriting skills made my job easy. I don't think I've ever been exposed to the idea of eating Oreo's with Beer, but it has my curiosity peaked. I might just have to try it. I think you'll enjoy this CD. I did!FRED REMMERT Mastering Engineer, Cedar Creek Studio
To All you Music Fans: We have known and enjoyed Jim and his music for many years. We owned a Lodge and Tavern in Red River, New Mexico. Jim was a favorite with the locals and tourists alike. When he played in our Tavern he would pack the house. He remains one of our favorite singers and his last CD was very special. We are truly looking forward to his next one. We know it will be great.
