Eclectic collection of songs in a variety of styles. Perfect for people with short attention spans. 43 MP3 Songs POP: Quirky, POP: Piano Details: This John Curtis release should be dedicated to his own short attention span. With 43 songs in a mere 60 minutes, if you like a song but think it's too short, well play it again! Many of these compositions were created at the Immersion Composition Societies in Minneapolis (bulletlodge.com) and Portland OR (Veronica Lodge) and there are several compositions that pay tribute to different styles (country-rock, 50's rock'n'roll, lounge music, hard rock and my favorite, a prog-rock masterpiece in 5 parts about Top Ramen that clocks in at 1 minute 7 seconds!). Features guest vocals by Steve Hale and guest lyrics by Kai Esbensen from Bubblemath, among others. And yes, there are several short songs about affordable food too.
