Power-pop flavored with Hooks and harmony, blended with roots rock and quirky punk 14 MP3 Songs

POP: Power Pop, ROCK: Roots Rock Details: The debut album "In Touch" was recorded 1991-1995, with tracks produced by Jeff Scott Mark - an eclectic mix of pop music incorporating many styles both musically and lyrically. Many of the tracks were recorded or in pre-production during the time (1991-1993) that Mark "Scrubby" fronted Washington-DC based garage band "The Hooks", along with bassist/songwriter Luis "Weez" Gutierrez and a Spinal Tap-like rotating cast of drummers. Classic power pop "hits" (Donna, Exactly, Take A Chance) to harder but still melodic grunge/punk/techno tracks (Whirlwind, Shades of Gray)...elements of roots rock, folk country (Melanie, In Your Heart), funk rock (Reel Em In, The Dark) and as well as several cross-genre and quirky "novelty" type songs (Texas Boots, Voyeur). You'll also find forays into instrumental soundtrack (Another's Joy) and ethnic folk-pop/orchestral(Stranger Land) The album features primarily instrumental and vocal work by Renburke (formerly Renne-Burke) with additional keyboards drum programming by Jeff Scott. Several tracks were recording and mixed at Movin Up Studio in Rockville, MD and feature the patented Sound Sucking(TM) Technology. The rest were recorded mixed at In Touch Studio in Nagoya, Japan. Mark's follow-up album (self-titled) was released in 2005, and explores new territory with elements of Celtic/Irish folk and Jazz/Blues/Bluegrass, and features many talented guest musicians including Material Issue's Ted Ansani and Irish singer-songwriter Brian Cullen.
