

Mp3 Various Artist - Attention Is Demanded Sometimes

[DOWNLOAD HERE](#)

The exclusive Hip-Hop, R&B Reggae Compilation album you must have. 25 of all profit will be donated to a selected AIDS organization to help with educating and testing youths. Artist on CD is from all over the world. 15 MP3 Songs HIP HOP/RAP: Hip Hop, WORLD: Reggae Details: Order "Attention Is Demanded Sometimes" (Aid's) Today! "Don't let our youths die from not knowing". Help us make this project a Success! Why is it so hard for individuals to face the fact of being infected with HIV/AIDS? Or why does society place such a BLACK cloud over anyone who admits to having, or thinks they are infected with the HIV Virus. Why? Why not step forward to help individuals with HIV/AIDS lead a healthy life? Living with HIV/AIDS is more than promising today than it was 25 years ago, when one had to prepare for death if they tested positive. "Attention Is Demanded Sometimes" is all about the cause: helping others get tested or treated for the deadly disease. How will this be accomplished? Terrelonge Recordings (tr-music.com) has put together a never before heard Album of Hip-Hop, R&B and Reggae with 14 exceptional artists. 25 of all the profits will be donated to help with the cause. The process took Terrelonge Recordings two years to get the artists, music and team to create this awareness album. The artist roster is as follows: Omeil, Frassman, Mysterious, TwiinTouch, Victorious/T-Huny, Black Majik, Niccolo Bondz, Clievo, INF, Colie, Posh, Daddy Slim, K-D-N and Geronimo chief. With this exceptional roster we anticipate moving a minimum of 50,000 units so we are able to donate a minimum of \$75,000 to organizations that will assist in giving inner city youths testing and provide awareness for the deadly disease HIV/AIDS. You can View Omeils Video for "Strive" on Ifilm (ifilm.com/ifilm/detail/2734114) and write your comments. This song represents the world we live in! Every click matters. Over the next two years you will see heavy placement for the sole purpose of educating youths to what is going on within their communities. Our primary focus is minorities although it's not limited. The reason for this focus, is that recent studies

indicate that many more minorities gets HIV/AIDS because of limited education on the disease and ignorance of not using protecting during sexual activities. Based on the website: education.bowiestate.edu/mmhp/?page_id=17 "AIDS is among the top three causes of death for African-American men ages 25 to 54. Furthermore, males accounts for the largest proportion (81) of AIDS cases reported among Hispanics in the United States. AIDS is a chronic life threatening sexually transmitted disease caused by HIV." The best methods for the prevention of HIV/AIDS is using protection during sexual activities, having a no sex policy, or before you have sex, both you and your partner get tested. Terrelonge Recordings (tr-music.com) goal is to enforce the message that using protection for sexual activities will assist in having a long and healthy life. We will also enforce the issue that all youths that are sexually involved should get tested regularly. Terrelonge Recordings (tr-msuic.com) is only a small voice in this estimated world of 5 billion people; we need your help to spread the message. How can you help? Buy the album (Attention Is Demand Sometimes), Get Educated, and Help in your community. Attention Is Demanded Sometimes will be in stores August 8, 2006, you can pre-order the album by visiting " tr-music.com" You can also contact Terrelonge Recordings if you would like to help, but don't know how to do so.
