'3HUNNID' is an extremely exciting new product from the street masterminds at CG3 Audio. Inspired by the newest crop of talented artists straight from the hoods of Chiraq Drillinios. Five monstrous street bangers inspired by artists such as Chief Keef, King Louie, Lil Reese, the controversial Lil Mouse, and producers such as Young Chop, Paris Bueller, C-Sick, and more are included. This pack will have your productions ten steps ahead of what's bangin' in the streets. As always at CG3 Audio they continue to be the company that brings the most up-to-date street inspired music so that their loyal customer family can stay ahead of the curve in both sound and composition. With the likes of platinum artists Kanye West, Future, 2Chainz, Young Jeezy, Lil Wayne, and Rick Ross quickly jumping on the new Chiraq sound, its obvious what's gonna be the next "hot" thing for mainstream Hip Hop. And with CG3's sounds being used in songs by many of these Chi-Town artists already, '3HUNNID' has been street-certified and

hood-approved to be the first to bring this gritty chaotic style of Hip Hop to the masses. Controversial as this new rising scene may be, no one can argue the fact its authenticity is uncompromising, as is CG3 Audio's. It's a perfect match, as well as the five perfect pavement-crushing compositions. As always this product will immediately speak for itself - and it's screaming out the best quality and bang for your buck. CG3's sounds can be heard in hit records by 2Chainz, Future, Soulja Boy, Yo Gotti, Chief Keef, Kirko Bangz, B.O.B, internet sensation, Riff Raff, and many more. You can own these same quality samples Royalty-Free! Just load into your favourite DAW and or sampler. Product Details: 154 Unique WAV files 1.16 GB of Drilled Out content All sounds are professionally recorded, edited, mixed and mastered utilising the best gear available, including Avalon, Rupert Neve Designs, Sony C800G Microphone, Apogee Symphony, Summit Audio, Eventide, and Manley outboard technologies. Please Note: One vocal in this Demo is not included and was used for demonstration purposes only. All rights reserved by CG3 Audio LLC.
