

Japan Since 1945: From Postwar To Post-bubble

[DOWNLOAD HERE](#)

Does Japan really matter anymore? The challenges of recent Japanese history have led some pundits and scholars to publicly wonder whether Japans significance is starting to wane. The multidisciplinary essays that comprise Japan Since 1945 demonstrate its ongoing importance and relevance. Examining the historical context to the social, cultural, and political underpinnings of Japans postwar development, the contributors re-engage earlier discourses and introduce new veins of research. Japan Since 1945 provides a much needed update to existing scholarly work on the history of contemporary Japan. It moves beyond the lost decade and terrible devastation frameworks that have thus far defined too much of the discussion, offering a more nuanced picture of the nations postwar development.
