"This CD just draws you in. Darkly evocative and beautiful, it's power is in it's sparseness. The improvised nature of this recording makes it flow seamlessly, a soundtrack for an individual journey...very soulful and meditative." 17 MP3 Songs NEW AGE: Ambient, EASY LISTENING: Background Music Details: "A TOUR DE FORCE of Winter Piano..." -- Jerry Krenach, Record Producer/Film Music Supervisor "No matter the season, Winter Day is my new mental getaway from the clanging, screeching migraine-inducing barrage of city life. From Art's mind to my ears - it feels like one long, smooth expression of an artist in perfect balance with his world. To listen is to understand." -- Ben Patton, Producer WLIW Television "Art Labriola's "Winter's Day" is a CD to be savored in all seasons. The wonderful mixture of emotion and intelligence in Art's compositions, and particularly his performance, gives a gentle depth and "thought-relaxing" ambience which appeals to all." --Terra Cox , Author "A timeless, peaceful work of art. Art Labriola's CD is the perfect companion for reading, working... just about anything you want to be calm and focused for." --Patti Pelican, Certified Yoga Instructor
