Acoustic Christian Rock 12 MP3 Songs POP: Folkly Pop, FOLK: Folk Pop Details: Autumn's Fire is a group of Christian musicians who formed in early 2004. We feel that the church is living in an exciting time of renewal, and many of our songs are driven by that focus. The messages we bring appeal to those seeking a deeper relationship with Christ, but they also give a fresh, interesting way to see the world and how to better love each other. Our music discusses a wide range of topics including faith, theology struggles, American ideals and the Christian pop-culture, and our shows vary from acoustic folk to energetic, acoustic rock. Performances have been called "raw and powerful" and they bring the message of hope, love, and change in our world.
