Garden of Dreams is an emerging pop group that is now taking its catchy melodies, rich instrumentation, and spectacular stage shows to the next level. As dazzling as the early 70's glam rock, as avant-garde as the techno-punk of the mid 80's, combined with the edgy aggressions of today's music, Garden of Dreams' music has accumulated countless loyal fans who throng their live shows, purchasing and parading their merchandise, post fan mail to the band's online message board, and fanatically support the group. The band consistently exceeds all expectations with their energy and talents, creating a new path for themselves in musical history much as their musical predecessors,

Tireless self-promoters, Garden of Dreams are religious in evangelizing their music and art.
