"The underground classic of 2002" as Angell's new release was aptly named by this All Music Guide Pick at 4 1/2 Stars, "A brilliant exercise in modern day psychedelia. Angell's music is unique in that he wields influences as far-flung as jazz, soul, pop.. 8 MP3 Songs POP: British Pop, ROCK: Modern Rock Details: Paul McCartney and Dennis D'Amico have selected the first track "Ooh Love" for the Garland Appeal's upcoming compilation CD. Angell will perform his songs live with a full orchestra backing him with the Garland Appeal. "The underground classic of 2002" as Angell's new release was aptly named by this All Music Guide Pick, was also well reviewed by The New Yorker "...Angell returns with an album of ambitious orchestral psychedelia, "Private Player," that's earned justifiable comparisons to the hallmark of the genre, Love's "Forever Changes." Alternative Press shouted, "With its beautiful tunes and emotive vocals 'Private Player' introduces a major new talent." Magnet Magazine also gave praise. John Taylor (Duran Duran) has now joined the band performing with Angell. Interestingly, David Bowie has also personally voiced his intent to make a bid and potentially sign Angell to his independent label, ISO. Angell -- a fixture during the frenzy of the early 90's northwest music explosion, has performed, written and recorded with such P-town notables as Courtney Taylor-Taylor (The Dandy Warhols), Eric Matthews, Tony Lash (Heatmiser, Elliot Smith), Daniel Riddle (King Black Acid) and Thee Slayer Hippy, producer and drummer of the notorious heavyweight punks, (Poison Idea). After years of group effort he finally embarked on what so many had been asking for, a solo album. He dropped out of the scene, had a daughter, designed and built a house in the woods and purchased enough recording gear to make this record. He sat in his kitchen with a piano, a synth, a mic and finished producing "Private Player". Beneath these arrangements lies a gritty soul, a sound track for the subconscious giving everyday events a cinematic gravity. \* XM Satellite Radio -- 2004 stay tuned for the upcoming live performance and
