Jangly California-style Power Pop, Big Booming Ballads, and a pure pop voice that'll hook you. 18 MP3 Songs POP: California Pop, POP: Power Pop Details: Out of print early career compilation of older tracks and demos from supreme power popster balladeer, Kyle Vincent--one of the best singer/songwriters the world's never known. The title says there are 16 songs, but there are actually 18, one of the bonus tracks being a killer cover version of the Raspberries' classic summer anthem, "On The Beach". Some of these tracks are raw, noisy demos that only a die hard Vincent fan will appreciate, but the majority are solid pop songs suitable for just about any type of music lover. This collection is also a must for anyone who has only recently discovered Kyle Vincent, for it will take you year by year through his 80's-90's unreleased recordings. Recommended.
