Listen to it. 6 MP3 Songs ROCK: Hard Rock, ROCK: Progressive Rock Details: Album Time - 18:48 This album is a live-in-the-studio performance (plus a single guitar overdub) during the sessions for Lecivius's full-length debut, Microbes, due in early 2005. We played the title track, and then came up with some new material at the right time. The samples are to your left, so go listen. Just make sure both of your speakers work...if you buy it, use headphones to listen with....and if you like it, stay tuned for Microbes, which will have more than one overdub on it.... -tw
