I get the inspiration for my music by being out in nature enjoying activities like bowhunting, ice fishing, and turkey hunting. My music is beautiful, soothing and relaxing to listen to and has been featured in Inspirational Wisconsin a Film of Scenic Choreography by Joseph T. LaMartina, and it is also in Outdoor, and Hunting videos. Often times I am told my compositions sound like the music of George Winston, David Lanz and Michael Jones. Linda Seeley is an accomplished musician. She began taking lessons when she was nine years old. Within a year, she decided that when she grew up she would teach piano lessons to children. After receiving a degree in Music Education from UW-Milwaukee her wish came true. In 1988 she began to teach piano to both adults and children in the Racine, WI area. She currently teaches more than sixty students at the Lakeshore Conservatory and at her home. During the years that she took piano lessons, she experimented with creating her own melodies and songs. She also liked playing popular music and began improvising. When her mom passed away in 1999 she decided to get an album together. Most of her songs on her CD are about the outdoor activities that she and her husband, Mark enjoy. Hunting, fishing, camping, and being "out in nature" are part of the inspiration for her music.
