Old School yet unique with a jazzy twist and some modern flavor. 12 MP3 Songs URBAN/R&B: Traditional R&B Show all album songs: Night for Love Songs Details: Good day everyone! He stands ready and willing to perform at any time and any place. Hes guaranteed to lift you from your seats when youre sitting and add soul to your feet. He brings a very unique style to the music industry that is displayed every time he performs. It all started at age five when Mark became incredibly interested in music and musical instruments. His highlighted moments at church consisted of being in front of the congregation and singing his heart out. From the first time he performed at a church, music became his destiny. He stayed with it trough thick and thin, good and bad times. Now twenty-four years later he has never skipped a beat. Today he is a singer, songwriter, and producer form the South. He is now learning the engineering aspects of the music industry to broaden his horizon. He is the seventh of eight siblings born to Roosevelt and Earline Dunn Sr. Although Mark credits his old school voice and style to his father who sang with the Legendary Brothers (Quintet Gospel Group), he has captured the spirits of many signers who has gone before him i.e., Otis Redding, Sam Cooke, Marvin Gaye, R Kelly, Keith Sweat, ect. Mark has performed songs from his debut album Night for Love at church, birthday parties, talent shows, weddings, reunions, business conferences, and festivals with extraordinary success. He has a smooth seductive style that feeds the lyrics which he locks into his mind. Once the key is turned, he hits the stage with a massive amount of power and energy ensuring his fans not only hear the music, but feel it too. His music is design to capture the attentions of lovers and give hope to the lonely. He may even rap you a pop tune from time to time. Mark often speak of his music being more than just words over rhythm. His his prayers is that his music could send a massage and change someones life for the better. If you like soulful, heartfelt, and mind stimulating music, youll enjoy Mark Dunns CD but love him in concert. Thanks
