

Mp3 Muleman - Even Kids Get The Blues

[DOWNLOAD HERE](#)

Two guitars and vocal songs for kids in elementary school. 9 MP3 Songs KIDS/FAMILY: General Children's Music, FOLK: Folk Blues Details: My nick name is Muleman and I perform and record under that name. I've been playing guitar and singing up and down the East coast of the United States for about 40 years!!! I play in several different bands and across all styles of Rock, Rhythm, Blues. I went to work at my son's school as a recess monitor and on rainy days when the kids couldn't go outside to play, I would bring my guitar in and sing for them. After a year of listening to rock 'n' roll songs they'd never heard before, they asked to write some songs about them.....so I did! And this c.d. is the result of my experience's with my little friends at school. The last song on the c.d. "Stomp In The Swamp", is about my childhood in Florida. The kids like to make "Gator Jaws" with their arms, everytime I say the word "Chomp" in the song. This c.d. has become so popular with the children in the area I live, that I've begun to perform at local library's and other children's functions. If they continue to enjoy my music in middle school, I might become the worlds oldest "Teen Idol"!!!!!!!!!!!!!!
