Get ready for intergalactic ride that will free your funky mind. "Turn It Up" is an energetic funk fusion that blends old school style soul and Parliament style grooves with rap and techno vibes, on the one. Turn it up and have a funky good time. 10 MP3 Songs URBAN/R&B: Funk, URBAN/R&B: Soul Details: Take a listen to the magic that happens when a family is on the one! "Dr. Quick" - Lead Guitar, Vocals Dr. Quick began performing at age 12 in a five kid band called "The Playmates." Quick kept the music inside and the dream alive. He passed on his passion for funk to his family. Quick plays a mean lead guitar and is dedicated to old school style funk. He has a Bootsy style eccentricity and charm. Quick is a true funk soldier and has schooled his family proper in Parliament, Funkadelic and music by other funk legends. This grooveologist is a lyrical and instrumental genius who is on a mission funkitize everyone he meets! "Spanish Rose" - Keyboards, Vocals This multi-talented Spanish Harlem Mona Lisa is the glue of the NoPain family. She likes to funk up pop tunes. Mariah Carey, Gwen Stefani, Beyonce and all you other luscious divas make room... the mother of funk is here! "Phatthumb" - Bass, Vocals PhattyT is the superfly front man. This artistic soul mixes energetic Red Hot Chili Peppers style grooves with psychedelic rock to create an original funky sound that Jimi Hendrix fans will love. "Kickbottem" - Percussion, Vocals With the good looks of Michael Jackson (before surgery) and Prince, this drum wizard keeps the band on the one. He also writes and performs rap fused with his funk roots. NoPain has been bringing on the funk since the new millenium. They have written and produced five albums. Their latest CD, "Turn It Up" tells their story of dealing with the issues of everyday life and calls on all funkateers to turn up the funk instead of settling for canned music that is pumped on commercial radio. The "Turn It Up" CD spans the funk genre from classic James Brown style soul that you will hear in "Off The Chain" to Hendrix style extended guitar riffs in "Fantastic Underground." This is the ONE. What are you waiting for?
