Relaxing mood music, uplifting and great for relaxing in a spa..candles ect..driving music 11 MP3 Songs  
WORLD: Celtic, EASY LISTENING: Mood Music Details: Renaissance Prayer is an improvisational  
delight!The discovery of listening to human heartbeats and by transforming the vibrations into a basis for  
percussion I found many musical ideas which became the motive for these songs. I improvise through the  
unique sounds created by an individual's heartbeat. The natural melodic tunes produce relaxation and  
peace restoring balance within the body unlike processed music."The album Renaissance Prayer is  
inspired by rythmic consciousness and is a journey for the listener. My music favors Latin,Jewish,Arabic  
and Brazilian and Scottish Celtic themes. International laments and spanish dreams are truly a  
wonderous expression to share.. Rena H.
