At first the cause of death was rumored to be suicide but we now know that Taki76 died of "boredom" a very serious illness that affects millions of people worldwide. A close friend confirmed that Taki was very bored of the current music being played on the radio and MTV to the point where all Taki did in his spare time was drink loads of coffee and produce bizarre spacefunk music while abusing tons of vintage FUNK stompboxes and synthesizers just so that the artist could numb his pain. Taki76 will be buried in his GIBSON guitar case today in his hometown (Montreal, CANADA) but the artist has no plans to stop releasing new material (just like 2PAC). NO, YOU HAVEN'T BEEN PUNK'D...BUT YOU'VE JUST BEEN FUNK'D! "eYe am a ninJa / U R a ninJa" is a beautiful disorganized cd full of Lo-fi funk. Taki's stuff is raw funk that even yo mama will dig if she grew up grooving to Parliament Funkadelic, Bootsy, Sly Stone, Jimi Hendrix, Prince, THE TIME etc... Taki plays all the instruments hizBADself yo! This disc features mostly instrumental jams and some vocals on the spiritualfunky "Used2b", "Don't let go", "U R the reason" and "Waste my time".
