Details: Tayvon born in Baltimore Maryland, grew up around music all his life. His real passion started at the age of seven when he started listening to the Dixie Humingbirds and other gospel church groups with his father. By the age of eleven, after hearing a local musician Michael Wilson play the bass guitar, Tayvon knew that his love of music was sealed. At thirteen, Tayvon got his first bass guitar and never looked back. His father, a Baptist Minister felt it was only right to support his sons decision to become a great player. His father anointed his sons hands and prayed for God to bless his son with the necessary skills to be a blessing on his instrument. This inspired Tayvon to come straight home every day after school to practice, often skipping dinner to listen and memorize the music on the radio. It wasnt that long before Tayvon started writing songs for other church groups in the Baltimore area. He was also instrumental in forming his first musical group incorporating the styles of great legends like Joel Smith and Andre Grouch. As Tayvons life progressed, he started writing more songs about life giving his music more direction, purpose, meaning. No more hype followed by disappointment and No more buying CDs with one maybe two good songs. If you enjoy heart-felt vocals, if you expect professional sounding music, Tayvons Debut CD, From My Heart is one you want in your CD collection. Most will agree, passion and shear determination coupled with his musical ability, makes this 25 year old musician poised for a sensational career ahead.
