Nu-Metal 7 MP3 Songs METAL: Alternative Metal, ROCK: Hard Rock Details: END7 is a band from Seinäjoki, Finland, started back in 2001 when lead singer Santtu's computer-music project shaped to a real band. END7 combines the main elements of modern metal and rapcore, with a bit industrial effect. Music is filled with emotions and aggression - rap, shouting and clean, beautiful background vocal melodies here and there - combined with a soulful melodic atmosphere, powerful distortion guitars and energetic beats. The year 2003 was the highlight of END7's beginning career. We spread our wings performing our first gig and shortly after that released our debut EP, titled "6543210". It got good acceptance all over the world, was played in various TV shows in our home country and was specially appreciated in Finnish music magazines. The release was sold out in 6 months. END7 has now composed a bunch of new songs and almost completely recorded a new EP which release date is yet unknown.
