A reflective contemporary classical piano suite. 13 MP3 Songs CLASSICAL: Contemporary, NEW AGE: New Age Details: Many people have told me that this music is restful and relaxing, and I also find that to be true. It is mostly slow paced, with just an occasional faster piece to keep up your interest and help you stay awake. The harmonies are somewhat exotic and serve to set up a certain mood. It's true, the music is different, but it is definitely not "Avant Garde." All of the pieces were composed during the last week of 1999, and the first week of the year 2000.
