Like Cat Stevens, Death Cab for Cutie and Sebadoh making love. 17 MP3 Songs POP: Folkly Pop, ROCK: Folk Rock Details: Following up 2003's "In My Own Weak Words", Jeffrey steps it up a notch in terms of production, songwriting and performance. The songs cover a wider range of sounds and styles than his first album, and the vocals are smoother and more confident. More than acoustic guitar this time around, Jeffrey has grown into a much bigger, more engaging sound. Some stand-out tracks are the surprisingly upbeat and bright "Peking Nudel", the darker "The Words Inside" and the sparse but incredibly catchy "(Sad) Panda Rides". Jeff's lyrics show a more mature songwriter with a broader perspective. "A Mild Showing of Teeth" is a solid, well thought out and consistently great album just about anyone will enjoy for a long time.
