

Mp3 Juan Silos Jr. & Rondalla - Philippine Folk Dances, Vol. 10

[DOWNLOAD HERE](#)

A Collection of traditional Philippine folk dances arranged and conducted by Juan Silos Jr. and his Rondalla. 12 MP3 Songs in this album (37:11) ! Related styles: WORLD: Asian, FOLK: Traditional Folk
Details: Now an institution on a world-wide scale, Juan Silos Jr. and his Rondalla and another masterpiece to their long list of Philippine musical gems, a precious addition to any musical library. Rondalla playing is a highly specialized art, not only the instruments are unique and require special techniques, but the music best suited to these instrumental tools are in themselves a distinctive class. In this sense, Philippine rondalla music has no parallel or equal in the world and within its scope, no one has been able to interpret and enrich rondalla culture as much as Juan Silos Jr. and his select group of rondalla artists. This album---Philippine Folk Dances is already the tenth volume in their glamorous repertoire and comments have it that it is the best one yet. Definitely worthy of the art of Silos and the progressive concepts of Villar Music International.
