Take a strong female contralto voice, such as Jo Dee Messina, Linda Rondstat and Kathy Mattea, Add a smooth male Willie Nelson and Randy Travis. Fold in some 'Scaggs' guitar with an 'pinch' of Dickie Betts. BAM there you have the recipe for PurpleSunset 10 MP3 Songs COUNTRY: Modern Country, COUNTRY: Country Rock Details: PurpleSunset is a husband/wife songwriter team who like to 'DEMO' their own songs. This PurpleSunset album, "Let's Build A Fire," has 10 new original tunes and reflects our respect for such great artists like Garth Brooks, Willie Nelson, The Allmon Brothers, Linda Rondstat, Dwight Yokum, Merle Haggard and Reba MacIntire. When Kurt and his good friend, Joe Canuel, mix it up on "Too Many Irons" and "Oregon Love", their combination of electric and acoustic guitar work deliver emotion so intense, that they become one. A wonderful friend, Steve Elliott, delivers fine fiddle and banjo work on "Oregon Love" as well. We were so lucky to have their input in making this, our 2nd album of original country music, a success. Its easy to see the influence of Ricky Scaggs, Dickie Betts and Vince Gill in this jewel. If you are a SLIDE GUITAR fanatic, check out "Harley Man" -We hope you enjoy the ride. We sure did! PurpleSunset NEWS: If you like these songs, please look for our third album of original songs, "Horses of Steel," scheduled for release in the summer of 2003.
