

Mp3 Rachel Kamps - New Horizons

The piano and voice combine to calm and inspire and to be soothing and gentle. 13 MP3 Songs EASY LISTENING: Background Music, NEW AGE: Meditation Details: This second cd was inspired and created as I made my way through uncertain times. The new horizons were interior landscapes that were colored by anticipation and dissapointment. Life choices (hard ones I admit) were made through the creation of these songs. Looking back now, I know it was a hard time, but I am glad I wrote the music that expressed itself the way it does.....meloncholly, searching, haunting, but ultimately soothing in conclusion. The keyboard instumental and the piano and my vocals were meant to create a sence of an interior journey. Hopefully you'll find the music that was birthed to be somewhat reflective and inspirational in a gentle sort of way. Thank you for listening. Rachel Kamps
