Traditional Country and Gospel 10 MP3 Songs COUNTRY: Traditional Country, GOSPEL: Country Gospel Details: I was born and raised in middle Tennessee, and grew up near College Grove (about 30mi south of Nashville). I'm the father of five children, and the husband of a wonderful loving wife. I'm a U.S. Army veteran of four years (1989-1993). I served in Korea, Ft Carson, CO. and Daharan Saudi Arabia. I continue to support the military in every way possible. Reminding myself daily that the freedom of our country depends on the service men and women worldwide. I have loved to sing all my life and thank God for the talents he has blessed me with My first CD is titled Blame it on the Bottle. A mix of country and gospel. If there's one thing I learned during the production it is always to trust my Lord and savior Jesus Christ. I continue to write songs and look forward to more CDs in the near future. Including a country/bluegrass gospel, as well as some folk and traditional styles of country that are few and far between these days. My goals in music are simple, be entertaining, make people happy, spread the gospel, and sing on the Grand Ole Opry. Most of these have been acheived and I could walk away from music satisfied today, but my heart won't let me. I hope you'll join me for the journey, it promises to be an exciting one.
