Cosmic breaks, filtered funk, dub fueled speaker freakers, smoky lounge downtempo, and floor filling housey doings - TNT is a hybrid of electronica and live instrumentation. 9 MP3 Songs ELECTRONIC: Down Tempo, ELECTRONIC: Dance Details: Established in 2003, TNT is a hybrid of electronica and live instrumentation. TNT Recordings is the three headed love-child of dance, groove, and psychedelia. TNT produces raw grooves that feed upon the emotion and energy of the original creative roots. Initial foundations are established in a live session, captured, and then shaped into their final forms without straying from the earliest framework. The final tracks are mixed deep for your headphones and soundsystem, and locked tight for the deepest of beat-matching. Place these ingredients for TNT dishes into your blender in equal parts. The recipe is as follows. King Tubby, Zero-7, LTJ Bukem, Parliament Funkadelic, Boards Of Canada, Kruder Dorfmeister, Thievery Corporation, Ninja Tune, Pink Floyd, Curtis Mayfield, DJ Spooky, Massive Attack, The Poets Of Rhythm, Carl Craig, DJ Shadow, Shy FX T-Power, and Plump DJs. Also throw in copius amounts of soul and passion. TNT is comprised of bassist Tom Dean, guitarist Nigel Watson, and keyboardist Tate North. The production trio cook-up cosmic breaks, filtered funk, dub fueled speaker freakers, smoky lounge down-tempo and floor-filling housey doings for peak-time at the club, or the silky after-hours due.
