Genre defined, super-ultra Japanese pop music, created in Brooklyn NY. 12 MP3 Songs POP: Asian Pop, ROCK: Japanese Rock Details: As leader of her band Tomiya St., Tomiya sold thousands of self-released CD's on the streets of Japan, quickly landing a contract with Warner Bros. As a solo artist, she's recorded with top producers in Tokyo, hosted a radio hour in Nagoya, and delighted audiences all over the globe. For her latest release "Ichiban Pop", she returned to the studio with producer/multi-instrumentalist Brad Craig. Here, as with their 2005 release "Honey Rock", they create a genre bending escape from the typical trappings of predictable pop, both eastern and western. Tomiya's music comes from her pure soul, which has yet to be jaded by society. She is funny, cool, sweet and edgy. She is everything her music is all about. People who are interested in should consider this download.
