When I collect enough of them I put them into an album, and get them out there for everyone to enjoy. Collecting Sounds is a lot of fun. Creating Sounds is even more interesting. Its much easier to just collect everyday sounds. They can be just as mysterious as sounds you create yourself. Some sounds can be used for a variety of scenes. What is important is that the sound fits the scene and makes the Movie enjoyable. There are 21 Tracks and 74 minutes of Sound Effects. From soothing rains to Irritating Clowns, and roaring Jet AfterBurners. There a lot of incidental sounds that make the listening interesting. I hope you enjoy Sound Effects SE006 "World In Motion"
