

The A To Z Of The European Union - Aimee Roy, Joaqu-n|kanner

Over half a century old and continuing to grow in strength and authority, the European Union consists of 25 member states_ with more on the waiting list_ and a population of 450 million people. Its influence in foreign and domestic affairs and human rights and law reaches far beyond its earlier fields of trade and politics. From the initial ideas about integration leading to the Treaty of Paris and the creation of the European Coal and Steel Community to the current reflection on the Treaty establishing a Constitution for Europe, The A to Z of the European Union encompasses the most basic elements of the EU and the components that have emerged as a result of them.
