

Brainwave Therapy - Create Success

[DOWNLOAD HERE](#)

You already possess everything you need to succeed. The secret to your success comes from within. The thoughts you think, the beliefs you hold, have extraordinary power to make or break your chances for success. Sometimes it might seem that no matter how hard you try to succeed there's always something pulling you down, getting in the way, or holding you back from achieving your dreams. This is because many self-sabotaging patterns reside in the subconscious and are completely unconscious, yet they undermine your best intentions. Create Success eliminates self-sabotage and negative thinking through bypassing the conscious mind and imprinting new self-empowering beliefs that will trigger remarkably higher levels of success and achievement. Through repeated listening, your subconscious will accept the messages on this program as true. In the days and weeks to come you can expect significant positive changes: You'll feel more creative and self-assured, you'll take an active role in creating your success, and you'll probably take a few more risks. As your confidence grows, new possibilities appear and obstacles will dissolve. You might even notice an increase in opportunities knocking at your door. When you allow the unlimited power of your subconscious to work for you, anything is possible. This recording contains the following subliminal messages: I believe in myself My talents are in demand I am recognized, I am lucky I attract opportunities for abundance and success I get all the help I need I stay calm, centered and focused I trust my intuition to show me the way I take risks with confidence, I adjust easily I am resourceful, I use my time wisely I ground my visions in reality I am patient, deliberate, and sure of my worth All that I seek is seeking me I possess unlimited resources I choose prosperity, I am prosperous I feel great, I love my life I achieve with ease I let go and find solutions I've got what it takes to win My hopes and dreams come true I am a success, I share my wealth This Brain Wave Subliminal has two tracks; both contain the exact same subliminal messages. You can listen two ways. Listen to both tracks anywhere or anytime over your stereo system. While you won't consciously hear the subliminal messages, they will be received and absorbed by your subconscious. For deeper subconscious programming, and to receive the full benefits of Brain Wave Therapy, listen to track 2 (the one without the piano overlay) with headphones at a time and place when you will not be disturbed. Allow yourself to

simply drift and relax. You might even fall asleep and take a refreshing nap. Whether you fall asleep while listening or not, theta brain wave frequencies will induce heightened receptivity to the messages. Theta brain waves have been identified as essential to learning and storing information in long-term memory. Theta is the ideal state for subconscious reprogramming.
