Aggressive World-Beat Jazz - contemporary jazz with a strong world influence. 17 MP3 Songs JAZZ: Acid Jazz, WORLD: World Fusion Details: "Hitchin' to Santa Fe" is an eclectic collection of songs by aggressive world-beat jazz band Before the Rain. The songs run the gamut from free jazz (Skinwalker, The Bone Game) to folk (Legends of the Three Legged Coyote, Friday by the Railroad Tracks) to Latin (Wichita Tango, Saved By Friends) to world-beat (Bayati Blues, Postcards from Sarajevo, Cry of the Wounded Healer) and levels between. "Hitchin' to Santa Fe" is our earliest exploration of world musical elements and world instruments (the tar, the broilka, the svirel, the djembe, Navajo Flute, dumbek and others...) The musicians in this group come from a variety of backgrounds, including blues, rock and jazz, and we are finding the music of the world a unifying factor, although this album is truly rooted in jazz. A great deal of the content is improvisational. It is the gateway to our future projects, which will be even more heavily influenced by cultural sounds.
