Edgy electronic music with lots of guitars. 9 MP3 Songs ELECTRONIC: Soundscapes, ELECTRONIC: Experimental Details: Circio: pronounced - "sir-key-o" The laboratory door closes and Circio locks himself in the room with all his guitars, amps, and electronic generators. Months later he emerges a wiser man, although a little more deaf and mixed up. Here are the results of a demented mind that survived the rigors of recording. Lots of guitar parts were improvised on the spot. All kinds of guitars and effects were used including a twelve string acoustic on "Do Not Disturb" and a 6 string acoustic on "5x". Enjoy all the sonic blasts on this CD. Mastering by Planet Ohm Productions (POP). Please note: This CD was professionally recorded, mixed, and master onto CD-Rs. The artwork is printed on high quality photo paper and the CD has no shrink wrap. Since we sell a limited number of these projects, there is no need to press large quantities.
