

## Mp3 Corrado Rossi - Electronic: Ambient

[DOWNLOAD HERE](#)

A superb CD where pure Ambient music and Chill-out grooves are blended with a Classical sounding and a particular attention to arrangement and sound-quality. Perfect for your relaxation and well-being. 15 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Virtual Orchestra Details: I have an extensive background in both Classical music and electronic music technologies. After the Piano Degree I started to dedicate my spare time to hard-disk recording and Ambient Soundtrack music. I compose unique instrumental pieces with a blend of piano, guitars, synths, bass and chill-out rhythms and arrange them to the final product. I am an artist who writes for himself, for having a special emotion during the creative moment and when I listen to my own song. Like most visionaries, I understand that if you explore your passion, you will find other like-minded individuals along the way. My musical vision is focused on energizing the genre of Ambient and Film Music by fusing the elements of Electronic soundscapes, Chill-out drumming and Classical Piano playing that, with a special dedication to melody and arrangement, are blended in uniquely passionate ways. With all these elements and a part of creativity I try to achieve a unique style that is my own. So slide back in your easy-chair and let me take you on an audio journey! My primary inspiration comes from Family, Life, Nature, Science, God and my life experiences with them. Additional inspiration comes from my favourite artists like Mike Oldfield, Alan Parsons and Eric Woolfson, Keith Jarrett, Dave Grusin, Pat Metheny and other pure Electronic music composers like Jean-Michel Jarre and Kraftwerk. Do I create music with an audience in mind? Sure. Me. I am the audience. I want to hear things I do not hear on the radio. And I am betting there are other people out there that will like what I like. My primary goal is to stay in touch with why I enjoy music; always thinking how to keep things fresh, daring, stylized, inventive, passionate, resonant and original. It's not easy and I don't know if I will ever reach that goal... but just trying will be enough!
