Folk/Pop/R&B with an Indie flare. There is something for everyone in this albumn. 10 MP3 Songs FOLK: Folk Pop, POP: Piano Details: This is a recording done over the course of 5 weeks at KB Studios (Tonys basement). The original intent was to form a 5 piece rock band, that didnt work out. Our next goal was to form a trio, no such luck. As we had all ready developed the logo the most economical route was to change the number 3, to a 2. Thus we became Fellows 2 Trio. At some point during the recording process we thought it would be nice to add some dobro. As neither of us play the dobro we called Jesse Smith, walla. How about some snare work, hey Bill Apold is a great brush player, lets get him over here. How about some violinsyou get the idea. What we ended up with is a very nice conglomeration of local artists backing us up. The cd was a blast to create, good times, good times. We hope you enjoy listening to it as much as we enjoyed making it! Thats not to cheesy to say is it AaronAaronwhered you go???
