It's "Country" for folks who like to smile, maybe shed just a tear, once and awhile. 20 MP3 Songs

COUNTRY: Modern Country, COUNTRY: Contemporary Country Show all album songs: I Love This Country Songs Details: When you get older you find that you arrive back home from dinner out about the same time you would be getting ready to go out when you were younger. My wife and I usually listen to music and have a night cap. One night I suggested that since we knew the words to all songs ever written in the history of man kind, why not write a song? I got two pads and pens and we started. In the movie "Throw Momma From The Train" an author is trying to write a book, but can't get beyond: "It was a dark and stormy night"...Well that's how I got started. It took a good while to get beyond my own "Dark and stormy night." I had some early success with patriotic songs written around the time of the Twin Towers disaster. This kept me going. Now I can't seem to write them fast enough. The idea that my songs could be giving people pleasure 100 years from now makes me try harder. What's more I love it! I get to write about my life's experiences, some real, some imagined, along with other people's dreams and desires. I love this country!
