Junk Circuit plays a fun brand of modern new wave, combining elements of popular 80's music with a modern edge. 11 MP3 Songs POP: New Wave, POP: 80's Pop Details: Albert Martinez (from Neuropa) joins Sondrine Terez and Anthony Banister to create the fun sounds of Junk Circuit. Though there are plenty of catchy, bouncy pop moments on this album, the general mood of Junk Circuit takes on a more darkwave, or semi-gothic appeal. Each song successfully injects elements of the gothic music created in the 80's, where catchy new wave hooks were still an important ingredient. Female vocals add a strong element to several songs. It's a modern new wave hit!
