A compilation of some of Houston's finest MC's putting it down over Pnut's tight tracks. It's got that knock to make your head hurt baby 19 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap Details: After three brain surgeries and my near death experience, I realized God left me here for a reason: to make music. I have been blessed with the gift to create beautiful music and my purpose is to share it with the world. Watching a documentary on jazz artists, I kept hearing about "the fire that came from within their souls." I knew at that moment, I would call my compilation "Fire" as it reminded me of the inspiration and passion that my music brought out of the MC's as they recorded over my beats. Presents...Fire is nineteen of my beats featuring various rappers that truly spit fire on my first release with PnutBrutal Music. You will hear many influences such as Prince, Bad Brains, Earth, Wind, Fire, The Cure, and many others. Fire comes with it on club hits "Bang Bang," "Grind Up," "Hold It Down," and "We Shinin'." Fire expresses a deeper message with "Divine," "Got To Be Serious," and "RainDropz." This release has a diverse mix of songs from the hard "Git That" and "Say My Name!" to the catchy "Indo" and "The World Is Yours" to the poetic "Fighting To Maintain." Fire is a collaboration between PnutBrutal Music and Digital Warehaus Productions to spread the love for original beats, original thoughts, and the expressions of third coast artist.
