

Mp3 Poly - Majestic Wreck

[DOWNLOAD HERE](#)

Well I'm going with my lady, to the spot with the sun on the sea. And we sit and we roast like some bread to some toast, like a chicken or like a turkey... 13 MP3 Songs ROCK: Progressive Rock, EASY LISTENING: Mood Music Details: There are moments in your life that transform you. The rest are the times leading up to them, and the sweet aftermaths. Music has always had at its core the possibility to create greater moments. Poly is a loyal servant. "Acoustic guitarist and frontman Rudy Karkosak has masterminded a collection of 13 interestingly disturbed excursions that drill deep into the subconscious, intense and spooky, like they were ripped whole from a Tim Burton film.... The meandering pacing, melted melodies and twisted vocals combine into musical surrealism at its best.... This has to be the most intriguing album to come along in a long time." Richmond Music Journal, Robert Stutler, Dec-Jan 2005 A famous musician once said, "The best songs are the ones that sound completely familiar, but like nothing you've ever heard before." With their debut album Majestic Wreck hitting the streets this fall, Poly sits dead center of this notion. The music bends between the beauty of a lone acoustic guitar and the well orchestrated roar of their locomotive sound. The songwriting, eccentric and honest, lets the band explore between new ideas and classic sounds. The melodies are rich and driven with a soulful rawness. Poly is no stranger to the Richmond, VA music scene. Singer/songwriter Rudy Karkosak and bassist Craig Weinstein have been creating their sound in garages for over ten years now. Todd Woodson is a Richmond legend. He is a master drummer who has toured the world many times over. Josh Bryant is a guitar monster that is currently finishing up his music degree at VCU. When they get together it is a celebration of the highs and lows of rock and roll. To contact Poly: Check Engine Productions 2A N. Mulberry St. Richmond, VA 23220 polyrichmond@hotmail.com
