Resination - Positive Vibes, Modern Roots Reggae 12 MP3 Songs WORLD: Reggae, WORLD: Island  
Details: Since 1999, Resination has been delivering rootical rhythms and conscious lyrics to the massive. Their first release entitled, "Live at SLO Brew" captures their unique style of reggae, as well as their strong message of Love, Unity and Positivity. The strong vibe persists with their latest effort, their first studio release entitled, "Mash Down Babylon." Comprised of an electric group of people, Resination's sound is as unique as the members. Vance "NocheMan" Fahie emits conscious lyrics utilizing reggae's diverse vocal stylings. From Lovers Rock to Roots Freestyle to Fire Burning Anthems, Vance stays true to the foundation of Reggae's mystical message. He is supported by the undeniably heavy rhythms laid down by drum and bass duo, Erik McCornack and Ian Hartman. Erik is a true rocker and has over twenty five years of drumming experience. His hard-hitting style is complimented by the rootsy sound of bassist Hartman. Ian adheres to reggae's roots. The solid foundation these two build is the perfect platform for the guitar voicing of Patrick Pearson. Both lead rhythm guitarist for Resination, Pat is a "Man of Music". Just as great reggae guitarists of the past, Pat is diverse in influence, pulling from such genres as Jazz, Blues and Funk. Without a doubt, a Resination show is always positive and uplifting... captivating the masses and unifying the people!
