East Coast hip hop with a rare combination of beats rhymes, Sinai Records' much anticipated sixteen track debut compilation takes you on a musical journey not often traveled. 16 MP3 Songs HIP HOP/RAP: Spiritual Rap, GOSPEL: Contemporary Gospel Details: Sinai Records is a new independent record label making quite a bit of noise in the Philadelphia tri-state area. Though the label is new, featured artists Ace, BLS and Denigh are no strangers to the underground hip hop scene. After making numerous mix tape appearances over the past five years the trio came together and decided to form their own label. They quickly signed five local artists and began recording this first compilation Manifest Destiny. This album has a similar style and feel as the Philly based group Cross Movement. The uniqueness in this album is found in the way these talented MC's are able to intertwine their spiritual message without being too in your face or preachy. But make no mistake about it, there is no question who they are talking about. While the message is clear, you still have to listen closely to catch all of the lyrical jewels in this record. This spirit filled album is an excellent start to what appears to be a bright future for the label. Check out the website [sinaientertainment.com](http://sinaientertainment.com)
