

Mp3 Sleepwalker - Flower Of Life

[DOWNLOAD HERE](#)

Introducing a new dimension to New Age with this stunning debut album using synthesizer, guitar, violin and voice to accent original Native American flute compositions. 9 MP3 Songs NEW AGE: New Age, WORLD: Native American Details: Lyubomir Yordanov a.k.a. Sleepwalker official member of ASCAP (American Society of Composers, Authors Publishers) is a professional new age composer, experienced to create ethereal, celestial soundscape textures in music compositions, using new computer audio technologies with admixture of root ethnic world instruments like native american walnut cedar flutes, violin, oud, percussions, acoustic electric guitar, bass guitar, timbal, armenian duduk, turkish ney, bagpipe, attendant on opera singers, ethnic tribal vocals, mystic, ancient, enigmatic lyrics, traditional native and sacred chants. His music has also a blend of other genres, which have identical and similar elements as world, folk, chill-out, native American, meditation healing, lounge, soft ambient, symphonic, orchestral and soundtrack music. MUSIC QUOTES written by sound reporters, producers and music labels Sleepwalker has the potential to take the new age world by storm. Masterful flute backed by equally precise percussion are the focus of this group, while pleasant and oh-so-interesting violin, bass, vocals and guitars help weave the fabric known as Sleepwalker. I haven't heard more haunting flute outside the Lakota Nation. American Native and East Orient influences are appearant, but the compositions of Lyubomir Yordanov are unique and each carry his creative stamp. The debut album, "Flower Of Life" does not sound like a debut. It plays like a fifth or sixth album from veteran musicians. The melodies and harmonies are tight, seeming like natural and spontaneous explosions of Mother Nature's own expressions of joy and celebration. This flower has bloomed fully and its beauty is there to be shared by the world. Jef Peace (Peacework Records) Flower of Life probably holds more variety than fans of Enigma/Delerium have come to expect from this genre. However, while some of the twists and

turns may take a while to get used to, your patience will be rewarded with music which is like a rich tapestry filled with brilliant vibrant colors and fascinating textures. Both artistically and technically, the CD is an achie. Bill Binkelman (Wind and Wire) Sounds can either be damaging to the ears or tell a story with a symphony of unique instruments and sounds; Sleepwalker is the latter. Lyubomir Yordanov a.k.a. Sleepwalker is a professional new age music composer hailing all the way from Bulgaria, so you know Flower of Life represents historic civilizations and their influence on the world. With such instruments as the Native American walnut cedar flutes and a driving melody of violin and electric guitar, this is music to wind you down and get centered, whether it is at your nearest yoga class or in the relaxation of your own home after heavy rock has near rattled your brain to oblivion Sleepwalker can brings you back to life. Lindsay Whitfield (Soul Shine Magazine) New age fans who enjoy global sounds in their mix will be interested to hear this CD. Anyone looking for some live Native American flute sounds against a worldbeat backdrop. Paul Jury (Morpheus Music) Let me make a list: Piano, guitar melodies, Native American flute, Indian chants and songs, sultry synth orchestrations. The best I can do is describe Sleepwalker's music as ethereal poetry put to music. The Flower of Life album is an inspiration for the soul and full of passionate emotion. You'll really have to listen to understand how much passion. Beautiful. Jewels (JIVE Magazine) This release offers a dose of substantive new age compositions that is wholly worthy of deeper attention. Matt Howart (Sonic Curiosity - Alternative/Electronic Music)
