His album is of the highest quality and includes the words to the song just in case your voice takes over from your heart. Steve has performed all over the world and will be headlining again this New Years Eve at the Back Bay Hilton in Boston. He got his start at an early age playing for schools and colleges, playing in a jazz combo in college and moving on to dinner clubs in the Michigan area when he was in the Air Force. From there he has played in many venues and is currently a regular at the Atrium at Quotes Cafe in the Mary Baker Eddy Library in Boston. His songs, and the way he performs them, are truly from the heart. "This is my first album and it was a pleasure to make. People tell me that when the world around them is falling apart, this album brings it back together again. I chose the songs based on the arrangements and the depth of construction of the song. It also helped that these were the favorites of my audiences. I hope you enjoy them as much." Steve Gaubatz
